**THEY MARCHED UP THE HILL AND THEN MARCHED DOWN AGAIN.**

President Cleveland has had the courage to stand up against the cattle raiders of the Southwest, and we who opposed his election can afford to recognize his firmness. They went in upon Indian lands, knowing that they were trespassers. The Government warned them that it would prove true to its obligation to the Indian tribes, and protect them in their landed rights. The cattlemen paid no attention to this. They drove in their herds, in defiance of law, and trusted to the Government at the last coming over to their side and neglecting the Indians' claim for protection. It must be confessed that the record of the acts of the Government on reservations, in the past twenty years, gave encouragement to this expectation. But for once the trespassers have been awakened to a realization of the fact that the Indian and the Government of the United States have rights even cattlemen are bound to respect. On Tuesday a delegation on their behalf called on President Cleveland to solicit a modification of his forty-day notice to the drivers to evacuate the premises they have invaded. It was a strong and a very large delegation backed by representative wealth, political influence and social and official importance. The President was told that to move the cattle out now meant ruin to the owners and a possible panic in all the Southwest, and all manner of evil and ill. We can well imagine how the delegation bore down upon the Executive, and how they pressed him with excuses for delay and reasons for mercy. But he was inflexible. In the words of the slang of the day, "he stood off the whole batch" — Senators, editors, capitalists, Mayors, military men and Congressmen. He told them that the cattle must go, and that General Sheridan would see to it that they were moved. Said the President:

There is one point that seems to escape your attention. That point is before my eye, and it is in the public interest. We have lately seen what fear can be created by thirty or forty Indians. Within two hours a herd of one tenth, 400,000 acres, with Indians are encroaching on the Agency. Some of this may have been secured with the consent of the Indians. It is apparent to me, as it is to you, that this state of things cannot continue. Two interests are in conflict, which shall give way? On one side we have public peace, public safety and safety of lives. On the other side we have Indian interests. The former, gentlemen, must be paramount. The question of putting off this removal until next spring is inadmissible—the order cannot be modified. I want to see if the Government should make the order, as it has done in scores of similar cases.

The literary world of America will be pained to learn that the gifted writer Helen Hunt Jackson is so dangerously ill at San Francisco that it is extremely doubtful if she can recover. By the simple initials H. H. this versatile literary scholar has become widely known, and has won a vast number of friends and admirers. The moral tone of all she has written has been lofty, and the scheme of her pen has always been practical. Graceful in diction, polished in style, and earnest and conscientious in every expression, she has gone into hundreds of thousands of homes as an influence of refinement and practical good. The world of her readers will pray for her recovery, since a pure and sincere wish is an earnest prayer, but if she must pass away now they will accompany her to the brink of the dark river with that sympathetic companionship which grows up between the pure and successful writer and the admiring and appreciative reader.

CONNECTICUT recently sold her three per cents at par. Whereupon her press applauded and boasted.

Now comes Tennessee, and points to the fact that she has paid off her debts to the amount of \$1,000,000, and is now in a position to pay for outstanding obligations at the rate of \$500 of new bonds for \$1,000 of old bonds. This is finding the debt with a vim, and testifies to very broad financial capacity on the part of the government in Tennessee.

the White House," said one: "And we walked down," added another.

## A WONDERFUL EVENT.

Nothing can be said or done in England, or elsewhere outside of America, can raise the American estimate of General Grant's character and services. But when nations of the Old World rise up and testify to their admiration for him who was lately the foremost living man of the New World, there is natural augmentation of pride. We had no reason to expect the English people to celebrate memorial services for General Grant. To do so was to do something wholly out of the common order. Had no such exercises been held, we could not have taken offense, nor, indeed, would it probably have ever occurred to us that there had been an omission. It would have fully met our views of propriety had the chiefs of the English Government in notes of condolence expressed their sympathy with us in the hour of affliction. This, indeed, they have done; but great deeds made besides. Within the walls of Westminster Abbey, sacred to the memory of kings and princes and some of the most illustrious men of time, the English people, of their own motion, have had memorial services in honor of an American citizen. The venerable and majestic interior of that stately historic pile has been hung in solemn black, and chancery and funeral dirge the prayer for the dead, and the church's lament for the bereaved, have testified to the grandeur of character in an American that challenges the admiration of the world. We repeat that it was an unprecedeted spectacle. Queen and princes, aristocrats and commoners, lords and titled ladies, the flower of English nobility and the best of English common life paid tribute to a representative citizen of a republican form of government, and the venerable and majestic interior of that stately historic pile has been hung in solemn black, and chancery and funeral dirge the prayer for the dead, and the church's lament for the bereaved, have testified to the grandeur of character in an American that challenges the admiration of the world. ## LOCAL INTELLIGENCE.

DECLINED TO INTERFERE.—City Attorney Anderson yesterday made a strong appeal to Judge Van Fleet to modify the judgment of the Police Court entered last month in the case of Fred Bliss, who was sentenced to 100 days in the County Jail for his treatment of his wife. It appears that the assault was committed. Last evening his wife appeared every few days at the station-house, and on bended knees implored the City Attorney to do his duty to the defense of herself and baby by securing a modification of the sentence. The City Attorney was then permitted to withdraw the papers filed in the case, saying that he would lay the matter before Judge Horner, and that he would not assume the authority of modifying his own judgment. Mr. Anderson further remarked that, if something were not done before long, it would become necessary to place under lock and key the prisoner's wife.

POLICE COURT.—The business before this tribunal yesterday was as follows: R. C. Crawford, a railroad conductor, accused of having beaten John Sullivan, was discharged, as Mr. Sullivan had been arrested in a row a few hours prior to his disastrous bout with the conductor, and the Court could not determine in which seat he sat. Captain Wm. Galt was elected chairman of a committee of subordinate officers, to determine the coming Fair, were made as follows:

## Pioneer Banquet.

Last evening about one hundred of the members of the Sacramento Society of Cali-  
fornia Pioneers met at their hall, to cel-  
ebrate the anniversary of the arrival in

1849 of one of their members, the present Public Administrator, F. H. Russel. A boy of 18 years of age left the city of Philadelphia, and came to the Marais des  
Sables, now San Francisco, with the San  
Francisco School of 1849.

After being out 202 days they arrived at San Francisco on the 5th of August, 1849, and Captain Wm. Galt was elected chair-  
man of a committee of subordinate officers, to  
determine the coming Fair, were made as follows:
